I'm a Mobile Developer focused on Flutter, building fast, reliable apps with smooth user experiences. I enjoy solving real problems in fast-paced environments and adapt quickly to new tools, challenges, and teams. I work well independently or with others, always aiming for clean code and polished results.

Experience

CV Indorep Tetap Santai - Depok
DECEMBER 2022 - PRESENT

Mobile Application Developer

- Designed and developed mobile game top-up apps with secure API integrations and reliable payment gateways.
  Tech Stack: *Flutter, JS*
- Built an internal Point-of-Sale (POS) app with advanced features, including interactive QRIS payment integration.
  Tech Stack: *Flutter, Go, SQL, Firebase*

Parallax Network - Jakarta
NOVEMBER 2023 - MAY 2024

Mobile Application Developer

- Developed a Web3-based crowdfunding app using Flutter for iOS and Android, translating UI/UX designs into clean, responsive interfaces and integrating smart contract functionality for secure blockchain payments.
  Tech Stack: *Flutter, Solidity*

TWEP - The Web3 Project
DECEMBER 2022 - FEBRUARY 2023

Mobile Application Developer

- Designed and developed a secure, user-friendly crypto wallet app using Flutter, integrating Ethereum blockchain support for wallet management, crypto transactions, dApp access, and DeFi features like staking, lending, and token swaps.
  Tech Stack: *Flutter, Solidity, JavaScript*

POLTEKKES KEMENKES - Tasikmalaya
JUNE 2022 - SEPTEMBER 2024

Mobile Application Developer

- Developed SI KB Pintar, a mobile app to support family planning counseling for couples. Built with Flutter and deployed to the Play Store. Handled maintenance and content updates.
- Developed PRONALIN, an educational app for pregnancy planning and complication prevention. Focused on clean UI and responsive features. Published and maintained on the Play Store.
- Developed ABPK, a decision-making tool to help couples choose suitable contraceptive methods during counseling. Built logic-driven guidance and managed deployment and updates via the Play Store.
  Tech Stack: *Flutter, Firebase,*

SMK Assalafiyah Sleman - Yogyakarta
JULY 2021 - DECEMBER 2021

Intern Frontend Developer

- Converted Figma UI/UX designs into responsive Flutter apps, focusing on smooth performance and seamless integration while working closely with designers, product managers, and backend developers.
  Tech Stack: *Flutter*

Education

Institut Teknologi Telkom Purwokerto
SEPTEMBER 2018 - AUGUST 2023

Bachelor of Computer Science – B.Comp.Sc., Computer Software Engineering

- Grade: 3.45
